~~engine...~~

The engine management light (EML) to give it

its proper name, doesn't indicate a specific

fault. It could be alerting you

to one or more issues,

typically linked to exhaust

emissions. Some

Download File

PDF Audi

are more serious than others. The light is connected to the car's main computer, called the engine control unit (ECU).

hi i have an

audi a3

sportsback

(diesel)my

engine

management light

comes on

initially and i

lose power but

Download File

PDF Audi

if i stop and
turn off
ignition when i
start up again
it stays off and
i get full power
back but after a
couple of miles
it comes back on
flashing and i
lose power again
so i switch off
again and it
goes back to

Download File

PDF Audi

full power also

my emission

control light

stays on whats

the diagnosis

please

~~hi i have an~~
