The General Electric CF6, US military designation F103, is a family of high-bypass turbofan engines produced by GE Aviation. Based on the TF39, the first high-power high-bypass jet engine, the CF6 powers a wide variety of civilian airliners. The basic engine core also powers the LM2500, LM5000, and LM6000 marine and power generation turboshafts. It is gradually being replaced by the newer GEnx family.

The CF6 engine family is the cornerstone of the widebody engine aircraft business. For 45 years, the CF6 engine family has established an impressive operational record. CF6 engines have compiled nearly 430 million flight hours since they first entered commercial revenue service in 1971.

The CF6 Engine | GE Aviation

Jun 11 2020 | by Chelsy Levingston. GE Aviation's longest running commercial engine program was already living a second life as a cargo powerhouse before the COVID-19 pandemic. Now, with airlines scrambling for capacity to meet cargo demand due to COVID-19's decimating impact on air traffic, the same CF6 engine family that helped secure GE Aviation's place as a world-leading civil aviation supplier has found a critical new role to play.

Cf6 Engine Operators - ciclesvieira.com.br

With the passenger market in distress, engine manufacturers and lessors agreed on the importance of working even more closely with cargo operators. Larry Gray, director of V2500, PW2000 and PW4000 marketing at Pratt & Whitney, also said his company is in regular dialogue with conversion houses and lessors about freighter conversions of 767s, A330s and A321s.

CFS: Engine USM availability still tight | Cargo Facts

The A330 has over ten variants across all passenger, cargo and military configurations. The engine options for the A330 CEOs are General Electric's CF6-80E, Pratt & Whitney's PW4000-100 and Rolls Royce's Trent 700. Of these engines, the Trent 700 has proved to be the most popular option by far for the fleet, as highlighted in the chart below, and this has led to the re-engined A330neo being a single engine option in the Rolls Royce Trent 7000.
